Malaysia Local-Made HVLS Fan

Manufacturing & Certified Installer

Company Profile

DLKM

Diploma
Lanjutan
Kemahiran
Malaysia

POWERFUL AIRFLOW. SAFER SPACES.

Efficient HVLS solutions for demanding large environments.

LOCALLY DESIGNED. TRUSTED NATIONWIDE.

Malaysia's first company to locally design, develop, assemble, and install HVLS fans; trusted by **100+ clients** across factories, shopping malls, schools, commercial buildings, mosques, and churches.

18+ YEARS OF EXPERTISE. CERTIFIED.

18+ years of mechanical assembly, equipment maintenance, and servicing. Certified by **Big Ass Fans**, **MacroAir**, and **Ventis** for installation and troubleshooting across Malaysia and the APAC region.

14+ YEARS OF HVLS LEADERSHIP.

14+ years of HVLS installation experience; launched **Maxima Fans**, an optimised in-house brand for large spaces. We also provide OEM manufacturing services and are planning for export growth.

OUR GROWTH JOURNEY

2008

Founded; started with power tools supply and equipment maintenance services.

March 2009

Began HVLS fan installation in Malaysia.

March 2015

Certified installer for Big Ass Fans Malaysia.

April 2016

Certified installer for MacroAir.

August 2017

Authorised installer and troubleshooter for Big Ass Fans Malaysia, supporting APAC customers.

January 2023

Launched our first in-house HVLS brand: **Maxima Fans**.

GUIDED BY VISION. DRIVEN BY VALUES.

The principles behind every Hiap Loong HVLS Installation.

VISION

To become Malaysia's leading homegrown innovator of high-quality HVLS fans.

MISSION

To make safety-assured HVLS fans more accessible, while prioritising the safety of both clients and the public.

CORE VALUES

INTEGRITY

Honest advice.
Repair first, with no unnecessary replacements.

RELIABILITY

Safety-first service
and dependable
workmanship for
secure performance.

PROFESSIONALISM

Technical expertise,
attention to detail,
and efficient
problem-solving.

MAXIMA FANS

Malaysia's Homegrown HVLS Brand

Built on 14+ years of hands-on installation and troubleshooting experience, Maxima Fans is Hiap Loong's in-house HVLS brand for large spaces.

The range includes 7 models in multiple sizes, engineered to deliver maximum airflow with minimum energy consumption while meeting today's energy-saving needs.

What Makes Maxima Fans Stand Out

01

QUALITY MATERIALS

Vetted local materials with supplier checks and documentation.

02

INNOVATIVE DESIGN

In-house blade and frame design for stronger airflow and lower energy use.

03

IN-HOUSE PRODUCTION

Made in Puchong for reliable delivery, easier maintenance, and spare-parts support.

04

RIGOROUS TESTING

In-house load, stress, and endurance tests for dependable performance.

CERTIFIED INSTALLER OF GLOBAL HVLS BRANDS

Hiap Loong offers HVLS fan solutions from three trusted brands — **Big Ass Fans**, **MacroAir** and **Venti** — combining global technology with local technical expertise for industrial and commercial spaces.

BIG ASS FANS®

Authorised installer and troubleshooter for Big Ass Fans in Malaysia and the APAC region. Delivers powerful, energy-efficient airflow for large spaces.

MacroAir

engineers of air™

Certified installer for MacroAir, a pioneer in HVLS fan technology known for reliable, high-performance airflow across many industries.

VENTI

Approved installer for Malaysia's Venti Fans, featuring quiet Direct Drive DC Brushless technology, strong energy savings and low maintenance.

GLOBAL
TECHNOLOGY

LOCAL
EXPERTISE

SAFETY
STANDARDS

LIFECYCLE SUPPORT & SAFETY

End-to-end service for reliable performance and safe operation.

CERTIFIED INSTALLERS

Brand-trained and regularly certified for correct installation and updated models.

PREVENTIVE MAINTENANCE

Scheduled checks help reduce faults, extend fan life, and maintain safe performance.

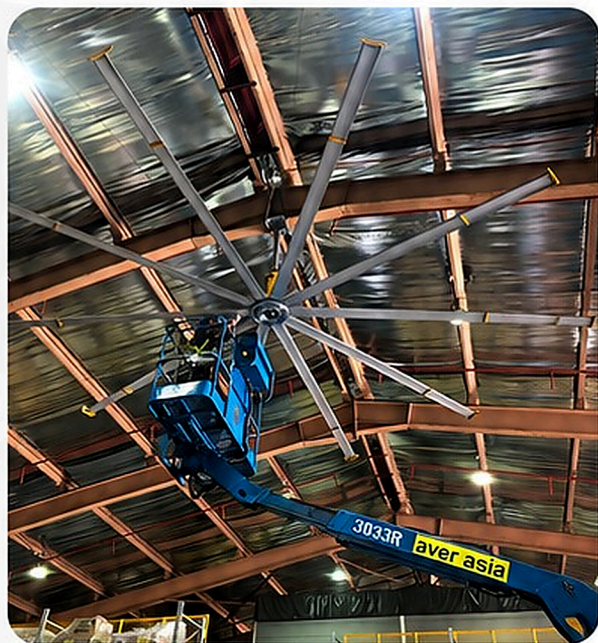

TROUBLESHOOTING

Fast diagnosis of mechanical, electrical, and control issues to minimise downtime.

REPAIR TEAMS

Practical repair support using original or compatible parts where needed.

SAFETY FIRST

Work-at-Height Compliance & PPE

Our team is trained for elevated work and follows strict site safety procedures. Full PPE is used on every project, including helmets, harnesses, lanyards, safety boots, and protective gear.
